DEAR HEALTHCARE PROFESSIONAL,

It gives me great pleasure to announce that the 8th Middle East Trauma Conference will take place 14-16 October, 2012 at the Abu Dhabi National Exhibition Centre, UAE.

Sponsored by the Cleveland Clinic, this conference is part of the Abu Dhabi Medical Congress – the only event in the Middle East that brings together healthcare professionals from the fields of Patient Safety, Emergency Services, Rehabilitation & Primary Healthcare for both scientific and commercial exchange.

Furthermore, it is one of a handful of events in the region to offer accredited Continuing Medical Education (CME) to attending medical professionals via its scientific conference programme.

The 8th Middle East Trauma conference focuses on multidisciplinary topics related to trauma, in the GCC region and beyond, to improve trauma patient care. The main focus of this conference is to share and impart knowledge from mass casualty situations, disaster medicine, trauma registries, critical care of trauma patients and chest injury prevention in order to implement various strategies to streamline patient care pathways and speed up the process of assessment and treatment.

On behalf of the conference chairs, the Activity Directors, and the rest of the congress team, we look forward to welcoming you to Abu Dhabi in October.

Yours sincerely,

Zuzana Laukova
Conference Manager
Abu Dhabi Medical Congress 2012
