DEAR HEALTHCARE PROFESSIONAL,

It gives me great pleasure to announce that the 5th Middle East Physical Medicine & Rehabilitation Conference will take place on the 15 - 16 October 2012 at the Abu Dhabi National Exhibition Centre, UAE.

Supported by Health Authority - Abu Dhabi, this conference is part of the Abu Dhabi Medical Congress – the only event in the Middle East that brings together healthcare professionals from the fields of Patient Safety, Emergency Services, Rehabilitation & Primary Healthcare for both scientific and commercial exchange.

Furthermore, it is one of a handful of events in the region to offer accredited Continuing Medical Education (CME) to attending medical professionals via its scientific conference programme.

The 5th Middle East Physical Medicine & Rehabilitation Conference 2012 will focus on how current practices can be successfully incorporated into regional healthcare systems by discussing modern trends and the latest research. This year’s conference will be split into two days. Day one will focus on spinal cord injuries and the focus of day two will be back pain. We will offer an in-depth update on both of these essential areas of rehabilitation, offering a multidisciplinary approach to patient care.

On behalf of the conference chair and the rest of the congress team, we look forward to welcoming you to Abu Dhabi in October.

Yours sincerely,

Cheryl Prior
Conference Producer
